

EXPERIENCE THE ENHANCED COMFORT AND PERFORMANCE OF OUR **HEAD-MOUNTED POWERED RESPIRATORS.**

Innovative respiratory, head, hearing, eye, and face protection comes in PureFlo's one-of-a-kind, all-in-one unit that doesn't require fit testing, hoses, or belts. Our PAPRs provide high performance protection while maximizing mobility, comfort, and cost effectiveness in a modular design customizable to industry and environment.

COMPARE THE BENEFITS OF HEAD-MOUNTED VERSUS WAIST-MOUNTED PAPRS:

Head-Mounted PAPRs

A BALANCED LIGHTWEIGHT ALL INCLUSIVE UNIT
(EVERYTHING THE WAIST-MOUNTED UNIT ISN'T)

COST OF OWNERSHIP

- A longer filter life extends use, and self-monitoring filters indicate when they need to be replaced
- Easy to maintain, with fewer breakable and replaceable parts
- Entire system can be worn under disposable/aluminized hood protecting sensitive components from contamination/high-heat

SAFETY

- Reduces risk of snag hazards
- Less interference with tools, machinery, and other PPE in tight spaces

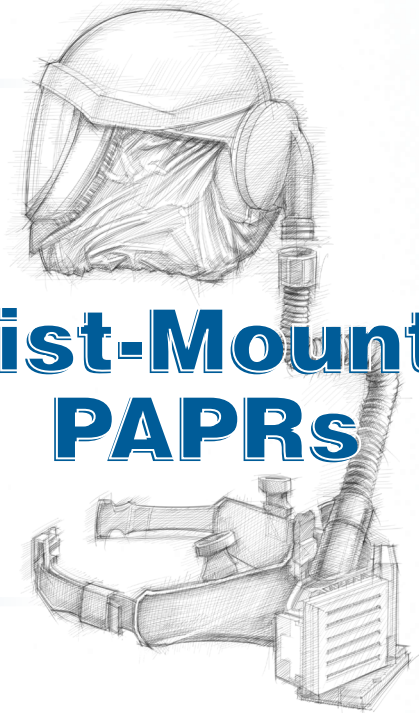

COMFORT AND USABILITY

- Greater mobility than waist-mounted PAPRs
- Integrated/balanced design minimizes neck fatigue
- Minimal setup: can be used out of the box

WORK EFFICIENCY AND EFFECTIVENESS

- Fast and easy to put on and take off
- Less maintenance and support
- More time working, less time worrying about PPE

Waist-Mounted PAPRs

COST OF OWNERSHIP

- More exposed parts create more potential for contamination issues
- More exposed parts means more potential points of failure
- Higher maintenance costs than head-mounted respirators

SAFETY

- Hoses and belts may present greater risk of snag
- Increases chance of interference with equipment, tools, and machinery in close quarters

COMFORT AND USABILITY

- Weight concentrated to lower back may lead to ergonomic distress
- Hose and belt limit mobility in tight spaces
- Generally requires more set up and assembly time

WORK EFFICIENCY AND EFFECTIVENESS

- Generally more time to put on and take off
- More maintenance and support
- Typically requires more maintenance and support
